PERSONAL CONTENT

I am a friend and team member who is loved by my friends, I adapt quickly to the team I am in. I take care to write maintainable code. I believe that working by embracing the application and company I have developed will lead me and my team to success. I do not avoid taking responsibility and the use of my application motivates me.

EXPERIENCE

Frontend Developer

Enuygun | 2024 Semptember - ...

- Insurance Team:
Development and maintenance of all applications under the insurance domain. Refactoring and rewriting of existing old project structures. Facelift, funnel, admin, offer page developments. EXPERIENCE

Frontend Developer

Finartz | 2021 November - 2024 August

- I worked at 3DS (3D Secure Server) and ACS (Access Control Server) Backoffice projects. I worked on some complicated management pages. I worked on Payment Verification Screens. I coded multiple authentication methods development for React projects (Keycloak , Sms Otp ...). I used pure html and js es5 for cross browser and mobile devices compatibility. I coded Figma designs as pixel perfect and responsive. I also worked on Dashboards , Real Time Monitoring tasks (about payment transactions) and charts.
- **React.js, JavaScript (es5, es6), Next.js, Typescript, Axios, Formik, Tailwind, Material Ui, Webauthn, FIDO, Keycloak**

Our Customers (Papara, Aktif Bank, Paycore, Garanti BBVA)

- Some Complicated Management pages:
 - Rule Management (Secure Score)
 - Keystore Management (SSL Certificates)
 - HSM Management
 - Role and Permission Management
 - Real Time Monitoring Pages
 - Dashboard and Charts Pages
 - Approval Management
 - Authentication Management

- Payment Verification Screens:
<https://finartz.com/experience3ds>
 - App Notification verification
 - Sms Otp verification
 - Frictionless verification
 - Fido Passkey Biometric verification
